23. Which elements of this course had the most positive impact on your engagement and/or learning?

I would say the lecture videos along with the slides

The most positive impact on my engagement and learning came from how clearly the material was presented. The topics were explained in a straightforward way, which made it easier to follow along and stay engaged.

The teaching videos

I think critical thinking about how economic work in daily life has impacted me positively.

Staying organized and being on top of my work.

Homework

I would say the problem solving aspect was a big one as we were asked questions about the economy and their affects on the world.

the homework taught me alot

videos and homework's

The discussions were very productive

The instructor explaining things clearly and the straightforward assignments helped me stay engaged and learn the material.

I think the discussions and quizzes helped a lot because they helped with my writing skills and were great practice for helping me understand concepts.

Listening and reflecting

The interesting coursework had me very attentive, and I woke up every day wanting to learn about macroeconomics, and I really enjoyed learning about it.

All of them!

The need to do assignments and be engaged in the class on days where I don't have to physically attend.

24. Which elements of this course could be improved to have a more positive impact on your engagement and/or learning?

I don't think anything needs to be improved. It was a very well organized class and there were helpful materials when needed.

The videos could be improved by being a bit longer. At times they felt slightly too short.

None

Everything was very organized!

None

nothing I can think of

nothing this was a great course!

N/A

N/A

Some topics could be explained more slowly and having more practice examples would help improve understanding.

I think this course was overall great!

Conductive analysis

I had no issue with the class and the way it was taught.

None!

Less readings and more interaction.
